Professional Summary

Entry-level Backend Developer with hands-on experience building and deploying RESTful APIs using Node.js, Express.js, and MongoDB. Skilled in implementing authentication, CRUD operations, and database management. Passionate about solving real-world problems with clean, beginner-friendly, and scalable code. Eager to contribute to collaborative projects and grow in a professional development environment.

Technical Skills

- Language: JavaScript(ES6+)
- Frameworks and Libraries: Node.js, Express.js
- Databases: MongoDB, Mongoose
- Authentication and Security: JWT, bcrypt, cookies, session handling
- Version Control: Git, GitHub
- Tools: Postman, VS Code
- Other Skills: REST API design, CRUD operations, middleware

Projects

E-commerce Backend API

- Built a modular RESTful API with user authentication(JWT with cookies)
- Implemented product catalog, shopping cart, ordering products, and admin-only product management
- Used MongoDB for database with models for users, products, carts, and orders
- Tested routes with Postman using urlencoded.

Blog Backend Platform
- Designed APIs for creating, reading, updating, and deleting blog posts
- Implemented role-based access control for admin and logged-in users
- Used MongoDb to store users and blog posts
- Ensured error handling with structured responses

Task Manager API
- Developed an API that allows users to register, login, and manage tasks
- Implemented task CRUD with deadline tracking
- Secured routes so only authenticated users can managed their tasks
- Added validation and default fields for tasks

Experience

Quality Control Executive   **June 2018-August 2024**
BELOXXI INDUSTRIES LIMITED, AGBARA, OGUN STATE, NIGERIA
- Managed and motivated the shift team to ensure efficient and effective inspections at all times and stages
- Ensured that the weighed batches are certified before dispatch
- Ensured thorough baking of products by evaluating appearance, taste, texture, and weight
- Ensured proper use of conforming packaging materials
- Maintained good housekeeping and enforces adherence to current Good Manufacturing Practices
- Carried out daily and routine laboratory analysis on raw materials and finished products and ensure that the procedures are followed properly
- Developed and implemented test plans for product defects

Education

Backend Development   2025
Axia Africa, Lagos, Nigeria

Bsc. Medical Biochemistry   2015
Delta State University, Abraka, Delta State, Nigeria
Second Class Upper Division

Senior School Certificate   2011
Delta State University Secondary School, Abraka, Delta State, Nigeria

Primary School Leaving Certificate   2005
Best Brain Nursery and Primary School, Ibadan, Oyo State, Nigeria

Certifications and Trainings

- Backend Development Training (Node.js and Express.js) – Axia Africa 2025
- Git and GitHub for Beginners – Self-study
- MongoDB Basics – Self-study
- ISO 9001:2015(Quality Management System) – Alison 2024
- Project Management – Dexa certified 2023
- Jobberman Soft Skills – Jobberman 2021

Personal Skills and Competence

- Ability to collect and analyze data, identify patterns, and draw meaningful insights to drive informed decisions
- Skilled in building and maintaining strong relationships with colleagues, and clients through empathy, active listening, and effective conflict resolutions
- Good command in computer skills such as Microsoft Office Suite
- Strong teamwork, problem-solving, and adaptability skills
